

Cape of Great Walks

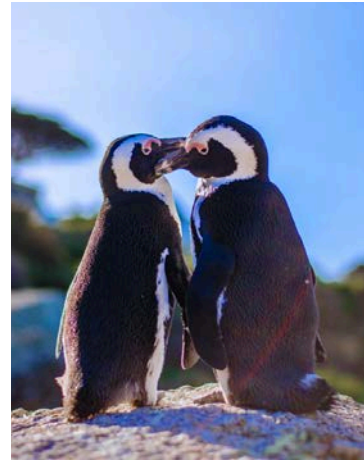

Cape of Great Walks invites guests to slow down and breathe in the raw beauty of the Cape Point Nature Reserve. Led by seasoned guides, we tread lesser-known tracks and trails in a remote corner of the reserve that reveals breathtaking coastal and mountain scenery.

We pause at the iconic Boulders Penguin Colony, where the azure waters frame beaches nestled among colossal boulders, to observe the critically endangered African Penguins in their protected habitat.

The day ends with a sundowner on the famed Chapmans Peak Drive and the promise of memories that will last long after the sun has set.

SLOW
EXPERIENCE

We recognise that some guests are more “leisure” oriented, so our guides will tailor the itinerary on the day to a pace that invites curiosity and connection. We can do as little or as much walking as your guests would like, whilst still providing an immersive experience that fuses cultural narratives with warm South African hospitality.

Our time at Cape Point was the highlight of our trip. What an amazing day!
